## SUMMARY

Results-driven **Full-Stack Web Developer** with expertise in **MERN stack, Java, and JavaScript**. Skilled in designing and developing **scalable web applications, RESTful APIs, and interactive user interfaces**. Proficient in **React.js, Node.js, Express.js, and MongoDB**. Strong problem-solving abilities and passion for learning new technologies.

## SKILLS

- **Languages:** JavaScript, Java, C++
- **Frontend:** React.js, Next.js, Tailwind CSS, UI Libraries
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB
- **Tools & Technologies:** Git, JWT, OOP, Data Structures & Algorithms

## EDUCATION

### Bachelor of Technology in Computer Science and Engineering

Geeta University • Naultha, Panipat • 2026 • 7.9

- Relevant Coursework : Full-Stack Web, Java Programming, Data Structures and Algorithms, Database Management Systems, Frontend development

### Class XII

Vaish Sr. Sec. School • Charkhi Dadri, Haryana • 2022 • 8.5

### Class X

Vaish Sr. Sec. School • Charkhi Dadri, Haryana • 2020 • 9

## RELEVANT COURSEWORK

### Full stack development

Geeta University, Naultha Panipat • 2024

- Full-Stack Web Development, Java Programming, Structures & Algorithms, Database Management Systems, Frontend Development, Computer Networks, Security Aspects

## PROFESSIONAL EXPERIENCE

### MERN Stack Developer Intern

ThinkNEXT Technologies

July 2024 - September 2024, Mohali, Chandigarh

- Developed and implemented **RESTful APIs** for dynamic application functionality.
- Contributed to **scalable web applications** using MongoDB, Express.js, React.js, and Node.js.
- Designed responsive UI components with **React.js and Tailwind CSS**.

### Web Developer Intern

Acmegrade Pvt Ltd

June 2023 - August 2023, Bengaluru, Karnataka

- Integrated **frontend and backend components** using Node.js and Express.js.
- Optimized website performance and ensured **cross-browser compatibility**.
- Gained hands-on experience in **responsive design and web development**.

## PROFESSIONAL TRAINING

### Business Name Generator (Next.js, AI)

College time • <https://business-name-generator-bay.vercel.app/> • January 2025 - January 2025

- Develop an AI-powered tool to generate unique business names, Integrate domain availability checking for .com domains.
- Designed and developed a full-stack web application. Integrated AI (Google Gemini AI) for name generation.
- Developed an AI-powered Business Name Generator with real-time .com domain availability check, customizable filters, and an intuitive user interface for enhanced user experience.

- Skills Developed: NextJs, UI/UX, Javascript, NodeJs

### **Job Portal Application (MERN Stack)**

Geeta University • January 2025 -January 2025

- Built a MERN stack job portal with recruiter and candidate modules, job postings, applications, authentication, and protected routes.
- Designed database schema, developed REST APIs, implemented authentication, integrated recruiter and candidate dashboards, and ensured secure and scalable performance.
- Developed a MERN stack Job Portal with recruiter job postings, candidate applications, authentication, protected routes, and a user-friendly interface.

### **Task Manager Application (MERN Stack)**

Self • [github.com/Vishesh-21/TaskManager](https://github.com/Vishesh-21/TaskManager) • September 2024 - September 2024

- Developed a MERN stack task manager with task creation, assignment, status tracking, and deadline management.
- Designed database schema, built REST APIs, implemented authentication, integrated task management features, and optimized performance.
- Created a MERN stack Task Manager with task assignment, status tracking, deadlines, authentication, and a user-friendly interface.

### **Mini Database Management System | JAVA**

Geeta Technical Hub • [github.com/Vishesh-21/Mini\\_Database](https://github.com/Vishesh-21/Mini_Database) • October 2024 - October 2024

- Developed a mini DBMS in Java with file handling, CRUD operations, and data management features.
- Designed the system architecture, implemented file-based storage, developed CRUD functionalities, and optimized data retrieval.
- Skills Developed: Java, Object-Oriented Design, Java Properties

---

## **CERTIFICATIONS**

### **JAVA (Basic)**

HackerRank • 2025

- Validates expertise in Java syntax, data structures, and algorithms.

### **Certified MERN Stack Developer**

ThinkNext Technologies • 2024

- Gained hands-on experience in full-stack development and team collaboration.
-
